RESUME

Creative Full Stack Developer and engineering student specializing in Cloud Computing, I bring diverse expertise in crafting innovative digital solutions focused on web and cloud technologies. Currently pursuing my second engineering cycle at EPI Sousse, I continuously expand my knowledge in cloud infrastructures and modern software architectures. With a proactive mindset and strong organizational skills, I am committed to delivering high quality, robust, and scalable web applications . My technical education and hands-on experience enable me to efficiently manage complex projects and adapt seamlessly within multidisciplinary teams.

PROFESSIONAL EXPERIENCE

- | | |
|--|---------------------------------|
| PFE Internship Sindibad Group | February 2024 - May 2024 |
| <ul style="list-style-type: none">Develop a digitalization platform for the call tenders process. | |
| Summer Internship Bridge 4 Talents | June 2023 - July 2023 |
| <ul style="list-style-type: none">Develop a Directory of clinics in Canada, Quebec | |
| Founder / Web Developer EndlessByte | May 2023 - January 2024 |
| <ul style="list-style-type: none">Leading the development of client websites and applications.Managing all phases of development from design to deployment. | |

PROJECTS

TakTak

- Development of a mobile application for geolocation and service booking deployed on Azure.
- Developed with React Native, Node.js, PostgreSQL, containerized using Docker and deployed on Microsoft Azure via GitHub Actions CI/CD pipelines and Terraform, it guarantees reliability, scalability and deployment automation.

IEEE IAS/PES ISIMM SB Joint Chapter Website

- Created the official website for the IAS / PES Joint Chapter using modern web technologies.
- Developed with NextJS, Prisma and deployed on ieee.tn domain.

InnovaMarkets

End of studies project

- Develop a platform to digitize the invitation to tender process.
- Developed with Angular, Node.js, Spring Boot, PostgreSQL, containerized using Docker

EDUCATION

- | | |
|---|-----------------------------------|
| Engineering degree specializing in cloud computing | September 2025 - Present |
| EPI - International Multidisciplinary School, Sousse | |
| Master's degree in Data Science | September 2024 - Present |
| Higher Institute of Computer and Mathematics of Monastir | |
| Bachelor of Computer Science | September 2021 - June 2024 |
| Higher Institute of Computer and Mathematics of Monastir | |

SKILLS

- Programming languages, Frameworks :** React.js / Tailwind CSS / Next.js / Angular / SpringBoot / JavaScript / TypeScript / PHP / Python / Django / Java / C.
- Databases :** PostgreSQL / Prisma / Supabase / MongoDB / MySQL.
- CMS:** WordPress.
- ERP:** Odoo.
- Version management:** Git / GitHub / Gitlab.
- Cloud & DevOps:** GitHub Actions (CI/CD) / Azure / Docker / Jenkins / Terraform / Prometheus / Grafana.
- Certifications:** IEEEExtreme 19.0 Programming / Competition, Scrum Fundamentals Certified (SFC).
- Extracurricular Activities :** Webmaster at IEEE ISIMM IAS PES Joint Student Branch Chapter.
